Projects

School Portfolio Website

Technologies: React.js,

Designed and developed a responsive and visually appealing portfolio website for a local school.

- Showcased key school details such as school programs, about the school, and the school gallery.
- Focused on delivering a user-friendly interface with React.js and styling with custom CSS.

Personal Portfolio Website

Technologies: HTML, CSS, JavaScript

- Developed a professional online portfolio to showcase my development projects, skills, and achievements.
- Demonstrated responsive design principles and attention to UI/UX details.

Moringa Lost and Found Website

Technologies: Flask, SQLAlchemy, React.js, Vite, Tailwind CSS

- Built a full-stack web application where users can report and search for lost or found items.
- Delivered real-time updates with CRUD functionality and secure user authentication.

- Designed an intuitive UI/UX with Figma and implemented it using Tailwind CSS
